- **Teleconferencing:**

Below are 2 options for connecting with committee for meeting, club members to stay in touch, even family and friends while staying safe.

- **WebEx (free)** (by Cisco a VERY well-known International company) can have 100 participants for each meeting. Meet as long as you want. Unlimited number of meetings. It is encrypted. Supports iPhone, iPad, android and wearables (e.g. smart watches), laptops and computer in fact anything connected to the internet, but will also call in using audio only (from phone). Can secure meeting after all participants have joined. (Prevents hacking i.e. a lot more secure)

Purchasing- Webex small team of up to 150 for unlimited time 5G Cloud storage with recording and MP4 for \$18.99/month/host)

This is what SARPA is currently trialling for Exec meetings. Thanks to S Rowe for researching options, supporting set up and generating the instruction documents. These are available to clubs. Contact SARPA.

- **ZOOM (free)** can have 100 participants, but for unlimited meetings only allow 1:1. There is a 40minute limit on group meetings. It is encrypted and you can phone in.

Many private people use this as it is very easy to use and in a domestic 1:1 situation it works well.

Purchasing Zoom - small team of up to 100 for 24 hours 1G of Cloud storage recording of meeting, at \$20.99/month/host.

Has recently had instances of hacking.

PA is currently using this BUT they have a corporate License.

GOOD LUCK
